

Collagen Type I, Rat Tail Solution - ready to us

Catalog Number: 6953

Description

Collagen Type I, Rat Tail Coating Solution is designed to coat cell culture flasks or dishes. Coat sterile culture dishes or flasks with Collagen Type I, Rat Tail Coating Solution for 2 hours, then aspirate the excess solution and wash dishes with PBS once before seeding cells. The use of coated-dishes improves cell attachment for certain types of primary cells.

Storage Condition

Store the solution at -20°C.

Shipping

Ice pack.
